# CHIEF TELECOM INC. AND SUBSIDIARIES CONSOLIDATED FINANCIAL STATEMENTS AND INDEPENDENT AUDITORS' REVIEW REPORT SEPTEMBER 30, 2024 AND 2023

For the convenience of readers and for information purpose only, the auditors' report and the accompanying financial statements have been translated into English from the original Chinese version prepared and used in the Republic of China. In the event of any discrepancy between the English version and the original Chinese version or any differences in the interpretation of the two versions, the Chinese-language auditors' report and financial statements shall prevail.

#### INDEPENDENT AUDITORS' REVIEW REPORT TRANSLATED FROM CHINESE

PWCR24000154

To the Board of Directors and Shareholders of CHIEF Telecom Inc.

#### Introduction

We have reviewed the accompanying consolidated balance sheet of CHIEF Telecom Inc. and Subsidiaries (the "Group") as at September 30, 2024, and the related consolidated statements of comprehensive income for the three months and nine months then end, as well as the consolidated statement of changes in equity and of cash flows for the nine months then end, and notes to the consolidated financial statements, including a summary of material accounting policies. Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers and International Accounting Standard 34, "Interim Financial Reporting" that came into effect as endorsed by the Financial Supervisory Commission. Our responsibility is to express a conclusion on these consolidated financial statements based on our reviews.

#### Scope of Review

We conducted our reviews in accordance with the Standard on Review Engagements 2410, "Review of Financial Information Performed by the Independent Auditor of the Entity" in the Republic of China. A review of consolidated financial statements consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

#### Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying consolidated financial statements do not present fairly, in all material respects, the consolidated financial position of the Group as at September 30, 2024, and of its consolidated financial performance for the three months and nine months then ended and its consolidated cash flows for the nine months then end in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers and International Accounting Standard 34, "Interim Financial Reporting" that came into effect as endorsed by the Financial Supervisory Commission.

#### Other matter - Prior period financial statements reviewed by other auditors

The consolidated financial statements of the Group for the nine months ended September 30, 2023, were reviewed by other auditors who expressed an unmodified conclusion on those statements dated November 2, 2023.

Chen, Hsien-Cheng Chou, Hsiao-Tzu For and on behalf of PricewaterhouseCoopers, Taiwan October 30, 2024

The accompanying consolidated financial statements are not intended to present the financial position and results of operations and cash flows in accordance with accounting principles generally accepted in countries and jurisdictions other than the Republic of China. The standards, procedures and practices in the Republic of China governing the audit of such financial statements may differ from those generally accepted in countries and jurisdictions other than the Republic of China. Accordingly, the accompanying consolidated financial statements and independent auditors' report are not intended for use by those who are not informed about the accounting principles or auditing standards generally accepted in the Republic

of China, and their applications in practice.

As the financial statements are the responsibility of the management, PricewaterhouseCoopers cannot accept any liability for the use of, or reliance on, the English translation or for any errors or misunderstandings that may derive from the translation.

# CHIEF TELECOM INC. AND SUBSIDIARIES NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS NINE MONTHS ENDED SEPTEMBER 30, 2024 AND 2023

(Expressed in thousands of New Taiwan dollars, except as otherwise indicated)

#### 1. History and Organization

- (1) Chief Telecom Inc. (the "Company") was incorporated as a company limited by shares under the provisions of the Company Act of the Republic of China (R.O.C.) in January 1991. The Company and its subsidiaries (collectively referred herein as the "Group") are primarily engaged in offering network integration, internet data center ("IDC"), communications integration, and cloud application services. Chunghwa Telecom Co., Ltd. and its subsidiaries were holding 58.63%, 58.63% and 58.67% of the shares of the Group as of September 30, 2024, December 31, 2023 and September 30, 2023, respectively. Chunghwa Telecom Co., Ltd. is the ultimate parent company of the Company.
- (2) On June 5, 2018, the ordinary shares of the parent company were listed and traded on the Taipei Exchange (the "TPEX").
- 2. The Date of Authorisation for Issuance of the Financial Statements and Procedures for Authorisation
  These consolidated financial statements were authorised for issuance by the Board of Directors on
  October 30, 2024.
- 3. Application of New Standards, Amendments and Interpretations
  - (1) Effect of the adoption of new issuances of or amendments to International Financial Reporting Standards ("IFRS®") Accounting Standards that came into effect as endorsed by the Financial Supervisory Commission ("FSC")

New standards, interpretations and amendments endorsed by FSC and became effective from 2024 are as follows:

|   | Effective date by        |
|---|--------------------------|
|   | International Accounting |
| New Standards, Interpretations and Amendments                     | Standards Board          |
| Amendments to IFRS 16, 'Lease liability in a sale and leaseback'  | January 1, 2024          |
| Amendments to IAS 1, 'Classification of liabilities as current or | January 1, 2024          |
| non-current'  |                          |
| Amendments to IAS 1, 'Non-current liabilities with covenants'     | January 1, 2024          |
| Amendments to IAS 7 and IFRS 7, 'Supplier finance arrangements'   | January 1, 2024          |
|   |                          |

The above standards and interpretations have no significant impact to the Group's financial condition and financial performance based on the Group's assessment.

### (2) Effect of new issuances of or amendments to IFRS Accounting Standards as endorsed by the FSC but not yet adopted by the Group

New standards, interpretations and amendments endorsed by the FSC effective from 2025 are as follows:

|   | Effective date by        |
|---|--------------------------|
|   | International Accounting |
| New Standards, Interpretations and Amendments   | Standards Board          |
| Amendments to IAS 21, 'Lack of exchangeability' | January 1, 2025          |

The above standards and interpretations have no significant impact to the Group's financial condition and financial performance based on the Group's assessment.

#### (3) IFRS Accounting Standards issued by IASB but not yet endorsed by the FSC

New standards, interpretations and amendments issued by IASB but not yet included in the IFRS Accounting Standards as endorsed by the FSC are as follows:

ECC 4: 1 4 1

|  | Effective date by        |
|--|--------------------------|
|  | International Accounting |
| New Standards, Interpretations and Amendments                      | Standards Board          |

| Annual Improvements to IFRS Accounting Standards—Volume 11         | January 1, 2026          |
|  |                          |

The Group has assessed that the above standards and interpretations had no material impact on the Group's financial condition and financial performance, except for the impact of IFRS 18, "Presentation and disclosure in financial statements", which has yet to be assessed.

#### 4. Summary of Material Accounting Policies

The material accounting policies applied in the preparation of these consolidated financial statements are set out below. These policies have been consistently applied to all the periods presented, unless otherwise stated.

#### (1) Compliance statement

The consolidated financial statements of the Group have been prepared in accordance with the "Regulations Governing the Preparation of Financial Reports by Securities Issuers" and the International Accounting Standard 34, 'Interim financial reporting' that came into effect as endorsed by the FSC.

#### (2) Basis of preparation

- A. Except for the following items, the consolidated financial statements have been prepared under the historical cost convention:
  - (a) Financial assets at fair value through profit or loss.
  - (b) Financial assets at fair value through other comprehensive income measured at fair value.
  - (c) Defined benefit liabilities recognised based on the net amount of pension fund assets less present value of defined benefit obligation
- B. The preparation of financial statements in conformity with International Financial Reporting Standards, International Accounting Standards, IFRIC Interpretations, and SIC Interpretations that came into effect as endorsed by the FSC (collectively referred herein as the "IFRSs") requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the Group's accounting policies. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the consolidated financial statements are disclosed in Note 5.

#### (3) Basis of consolidation

- A. Basis for preparation of consolidated financial statements:
  - (a) All subsidiaries are included in the Group's consolidated financial statements. Subsidiaries are all entities controlled by the Group. The Group controls an entity when the Group is exposed, or has rights, to variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. Consolidation of subsidiaries begins from the date the Group obtains control of the subsidiaries and ceases when the Group loses control of the subsidiaries.
  - (b) Inter-company transactions, balances and unrealised gains or losses on transactions between companies within the Group are eliminated. Accounting policies of subsidiaries have been adjusted where necessary to ensure consistency with the policies adopted by the Group.
  - (c) Profit or loss and each component of other comprehensive income are attributed to the owners of the parent and to the non-controlling interests. Total comprehensive income is attributed to the owners of the parent and to the non-controlling interests even if this results in the non-controlling interests having a deficit balance.
- B. Subsidiaries included in the consolidated financial statements

|                       |                                     |   |               | Ownership(%  | o)            |                  |

- Note 1: According to the mutual agreements among shareholders of Shanghai Chief Telecom Co., Ltd. ("SCT"), since the Company has two of three seats in SCT's board of directors, the Company has control over SCT; therefore, SCT is deemed a subsidiary of the Group. SCT mainly operates in the telecommunications and data service business.
- Note 2: The company's financial statements as at December 31, 2023 were audited by the former independent auditors.
- Note 3: The company's financial statements as at September 30, 2023 were reviewed by the former independent auditors.
- C. Subsidiaries not included in the consolidated financial statements: None.
- D. Adjustments for subsidiaries with different balance sheet dates: None.
- E. Significant restrictions: None.
- F. Subsidiaries that have non-controlling interests that are material to the Group: None.

#### (4) Foreign currency translation

Items included in the financial statements of each of the Group's entities are measured using the currency of the primary economic environment in which the entity operates (the "functional currency"). The consolidated financial statements are presented in New Taiwan Dollars, which is the Company's functional currency.

#### A. Foreign currency transactions and balances

- (a) Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions or valuation where items are remeasured. Foreign exchange gains and losses resulting from the settlement of such transactions are recognised in profit or loss in the period in which they arise.
- (b) Monetary assets and liabilities denominated in foreign currencies at the period end are retranslated at the exchange rates prevailing at the balance sheet date. Exchange differences arising upon re-translation at the balance sheet date are recognised in profit or loss.
- (c) Non-monetary assets and liabilities denominated in foreign currencies held at fair value through profit or loss are re-translated at the exchange rates prevailing at the balance sheet date; their translation differences are recognised in profit or loss. Non-monetary assets and liabilities denominated in foreign currencies held at fair value through other comprehensive income are re-translated at the exchange rates prevailing at the balance sheet date; their translation differences are recognised in other comprehensive income. However, non-monetary assets and liabilities denominated in foreign currencies that are not measured at fair value are translated using the historical exchange rates at the dates of the initial transactions.
- (d) All foreign exchange gains and losses are presented in the statement of comprehensive income within 'other gains and losses'.

#### B. Translation of foreign operations

The operating results and financial position of all the group entities that have a functional currency different from the presentation currency are translated into the presentation currency as follows:

- (a) Assets and liabilities presented in each balance sheet are translated at the closing exchange rate at the date of that balance sheet;
- (b) Income and expenses for each statement of comprehensive income are translated at average exchange rates of that period; and
- (c) All resulting exchange differences are recognised in other comprehensive income.

#### (5) Classification of current and non-current items

- A. Assets that meet one of the following criteria are classified as current assets; otherwise they are classified as non-current assets:
  - (a) Assets that are expected to be realised, or are intended to be sold or consumed within the normal operating cycle;
  - (b) Assets held mainly for trading purposes;
  - (c) Assets that are expected to be realised within twelve months from the balance sheet date;
  - (d) Cash and cash equivalents, excluding restricted cash and cash equivalents and those that are to be exchanged or used to settle liabilities more than twelve months after the balance sheet date.
- B. Liabilities that meet one of the following criteria are classified as current liabilities; otherwise they are classified as non-current liabilities:
  - (a) Liabilities that are expected to be settled within the normal operating cycle;
  - (b) Liabilities held mainly for trading purposes;
  - (c) Liabilities that are to be settled within twelve months from the balance sheet date;
  - (d) It does not have the right at the end of the reporting period to defer settlement of the liability at least twelve months after the reporting period.

#### (6) Cash equivalents

Cash equivalents refer to short-term, highly liquid investments that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value. Time deposits that meet the definition above and are held for the purpose of meeting short-term cash commitments in operations are classified as cash equivalents.

#### (7) Financial assets at fair value through profit or loss

- A. Financial assets at fair value through profit or loss are financial assets that are not measured at amortised cost or fair value through other comprehensive income.
- B. On a regular way purchase or sale basis, financial assets at fair value through profit or loss are recognised and derecognised using trade date accounting.
- C. At initial recognition, the Group measures the financial assets at fair value and recognises the transaction costs in profit or loss. The Group subsequently measures the financial assets at fair value, and recognises the gain or loss in profit or loss.

D. The Group recognises the dividend income when the right to receive payment is established, future economic benefits associated with the dividend will flow to the Group and the amount of the dividend can be measured reliably.

#### (8) Financial assets at fair value through other comprehensive income

- A. Financial assets at fair value through other comprehensive income comprise equity securities which are not held for trading, and for which the Group has made an irrevocable election at initial recognition to recognise changes in fair value in other comprehensive income and debt instruments which meet all of the following criteria:
  - (a) The objective of the Group's business model is achieved both by collecting contractual cash flows and selling financial assets; and
  - (b) The assets' contractual cash flows represent solely payments of principal and interest.
- B. On a regular way purchase or sale basis, financial assets at fair value through other comprehensive income are recognised and derecognised using trade date accounting.
- C. At initial recognition, the Group measures the financial assets at fair value plus transaction costs. The Group subsequently measures the financial assets at fair value:

The changes in fair value of equity investments that were recognised in other comprehensive income are reclassified to retained earnings and are not reclassified to profit or loss following the derecognition of the investment. Dividends are recognised as revenue when the right to receive payment is established, future economic benefits associated with the dividend will flow to the Group and the amount of the dividend can be measured reliably.

#### (9) Accounts and notes receivable

- A. Accounts and notes receivable entitle the Group a legal right to receive consideration in exchange for transferred goods or rendered services.
- B. The short-term accounts and notes receivable without bearing interest are subsequently measured at initial invoice amount as the effect of discounting is immaterial.

#### (10) Impairment of financial assets

For financial assets at amortised cost at each reporting date, the Group recognises the impairment provision for 12 months expected credit losses if there has not been a significant increase in credit risk since initial recognition or recognises the impairment provision for the lifetime expected credit losses (ECLs) if such credit risk has increased since initial recognition after taking into consideration all reasonable and verifiable information that includes forecasts. On the other hand, for accounts receivable or contract assets that do not contain a significant financing component, the Group recognises the impairment provision for lifetime ECLs.

#### (11) <u>Derecognition of financial assets</u>

The Group derecognises a financial asset when one of the following conditions is met:

- A. The contractual rights to receive the cash flows from the financial asset expire.
- B. The contractual rights to receive cash flows of the financial asset have been transferred and the Group has transferred substantially all risks and rewards of ownership of the financial asset.

C. The contractual rights to receive cash flows of the financial asset have been transferred; however, the Bank and its subsidiaries have not retained control of the financial asset.

#### (12) <u>Leasing arrangements (lessor)</u>— operating leases

Lease income from an operating lease (net of any incentives given to the lessee) is recognised in profit or loss on a straight-line basis over the lease term.

#### (13) Inventories

Inventories are stated at the lower of cost and net realisable value. Cost is determined using the weighted-average method. The item by item approach is used in applying the lower of cost and net realisable value. Net realisable value is the estimated selling price in the ordinary course of business, less the estimated costs of completion and the estimated costs necessary to make the sale.

#### (14) Property, plant and equipment

- A. Property, plant and equipment are initially recorded at cost. Borrowing costs incurred during the construction period are capitalised.
- B. Property, plant and equipment apply cost model and are depreciated using the straight-line method to allocate their cost over their estimated useful lives. Each part of an item of property, plant, and equipment with a cost that is significant in relation to the total cost of the item must be depreciated separately.
- C. The assets' residual values, useful lives and depreciation methods are reviewed, and adjusted if appropriate, at each financial year-end. If expectations for the assets' residual values and useful lives differ from previous estimates or the patterns of consumption of the assets' future economic benefits embodied in the assets have changed significantly, any change is accounted for as a change in estimate under IAS 8, 'Accounting Policies, Changes in Accounting Estimates and Errors', from the date of the change.

The estimated useful lives of property, plant and equipment are as follows:

Information equipment $3 \sim 5$  yearsTelecommunications equipment $2 \sim 30$  yearsMiscellaneous assets $3 \sim 5$  years

#### (15) Leasing arrangements (lessee) — right-of-use assets/ lease liabilities

- A. Leases are recognised as a right-of-use asset and a corresponding lease liability at the date at which the leased asset is available for use by the Group. For short-term leases or leases of low-value assets, lease payments are recognised as an expense on a straight-line basis over the lease term.
- B. Lease liabilities include the net present value of the remaining lease payments at the commencement date, discounted using the incremental borrowing interest rate. Lease payments are comprised of the following:
  - (a) Fixed payments, less any lease incentives receivable;
  - (b) Variable lease payments that depend on an index or a rate.

The Group subsequently measures the lease liability at amortised cost using the interest method and recognises interest expense over the lease term. The lease liability is remeasured and the amount of remeasurement is recognised as an adjustment to the right-of-use asset when there are changes in the lease term or lease payments and such changes do not arise from contract modifications.

- C. At the commencement date, the right-of-use asset is stated at cost comprising the following:
  - (a) The amount of the initial measurement of lease liability;
  - (b) Any lease payments made at or before the commencement date.

The right-of-use asset is measured subsequently using the cost model and is depreciated from the commencement date to the earlier of the end of the asset's useful life or the end of the lease term. When the lease liability is remeasured, the amount of remeasurement is recognised as an adjustment to the right-of-use asset.

#### (16) <u>Intangible assets</u>

#### A. Computer software

Computer software is stated at cost and amortised on a straight-line basis over its estimated useful life of 3 to 8 years.

#### B. IP address (indefinite useful life)

IP address is stated at cost which is considered to have an indefinite useful life and is not amortized, but is tested annually for impairment, since only an annual fee is necessary to maintain its usage rights, and there is no foreseeable limit to the period over which the asset is expected to generate net cash flows.

#### (17) <u>Impairment of non-financial assets</u>

- A. The Group assesses at each balance sheet date the recoverable amounts of those assets where there is an indication that they are impaired. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs to sell or value in use. When the circumstances or reasons for recognizing impairment loss for an asset in prior years no longer exist or diminish, the impairment loss is reversed. The increased carrying amount due to reversal should not be more than what the depreciated or amortised historical cost would have been if the impairment had not been recognised.
- B. The recoverable amounts of intangible assets with an indefinite useful life are evaluated periodically. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount.

#### (18) Borrowings

Borrowings comprise short-term bank borrowings. Borrowings are recognised initially at fair value, net of transaction costs incurred. Borrowings are subsequently stated at amortised cost; any difference between the proceeds (net of transaction costs) and the redemption value is recognised in profit or loss over the period of the borrowings using the effective interest method.

#### (19) Notes and accounts payable

- A. Accounts payable are liabilities for purchases of raw materials, goods or services and notes payable are those resulting from operating and non-operating activities.
- B. The short-term notes and accounts payable without bearing interest are subsequently measured at initial invoice amount as the effect of discounting is immaterial.

#### (20) Derecognition of financial liabilities

A financial liability is derecognised when the obligation specified in the contract is either discharged or cancelled or expires.

#### (21) Employee benefits

#### A. Short-term employee benefits

Short-term employee benefits are measured at the undiscounted amount of the benefits expected to be paid and are recognised as expenses in the period in which the employees render service.

#### B. Pensions

#### (a) Defined contribution plan

For the defined contribution plans, the contributions are recognised as pension expense when they are due on an accrual basis. Prepaid contributions are recognised as an asset to the extent of a cash refund or a reduction in the future payments.

#### (b) Defined benefit plan

- i. Defined benefit costs (including service cost, net interest and remeasurement) under the defined benefit retirement benefit plans are determined using the projected unit credit method. Service cost (including current service cost) and net interest on the net defined benefit liability (asset) are recognized as employee benefits expense in the period they occur.
- ii. Remeasurements arising on defined benefit plan are recognized in other comprehensive income in the period in which they arise and are recorded as retained earnings.
- iii. Pension cost for the interim period is calculated on a year-to-date basis by using the pension cost rate derived from the actuarial valuation at the end of the prior financial year, adjusted for significant market fluctuations since that time and for significant curtailments, settlements, or other significant one-off events. Also, the related information is disclosed accordingly.

#### C. Employees' compensation and directors' and supervisors' remuneration

Employees' compensation and directors' and supervisors' remuneration are recognised as expense and liability, provided that such recognition is required under legal or constructive obligation and those amounts can be reliably estimated. Any difference between the resolved amounts and the subsequently actual distributed amounts is accounted for as changes in estimates. If employee compensation is paid by shares, the Group calculates the number of shares based on the closing price at the previous day of the board meeting resolution.

#### (22) Employee share-based payment

For the equity-settled share-based payment arrangements, the employee services received are measured at the fair value of the equity instruments granted at the grant date, and are recognised as compensation cost over the vesting period, with a corresponding adjustment to equity. The fair value of the equity instruments granted shall reflect the impact of market vesting conditions and non-market vesting conditions. Compensation cost is subject to adjustment based on the service conditions that are expected to be satisfied and the estimates of the number of equity instruments that are expected to vest under the non-market vesting conditions at each balance sheet date. Ultimately, the amount of compensation cost recognised is based on the number of equity instruments that eventually vest.

#### (23) Income taxes

- A. The tax expense for the period comprises current and deferred tax. Tax is recognised in profit or loss, except to the extent that it relates to items recognised in other comprehensive income or items recognised directly in equity, in which cases the tax is recognised in other comprehensive income or equity.
- B. The current income tax expense is calculated on the basis of the tax laws enacted or substantively enacted at the balance sheet date in the countries where the Company and its subsidiaries operate and generate taxable income. Management periodically evaluates positions taken in tax returns with respect to situations in accordance with applicable tax regulations. It establishes provisions where appropriate based on the amounts expected to be paid to the tax authorities. An additional tax is levied on the unappropriated retained earnings and is recorded as income tax expense in the year the stockholders resolve to retain the earnings.
- C. Deferred tax is recognised, using the balance sheet liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the balance sheet. However, the deferred tax is not accounted for if it arises from initial recognition of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting nor taxable profit or loss and does not give rise to equal taxable and deductible temporary differences. Deferred tax is provided on temporary differences arising on investments in subsidiaries, except where the timing of the reversal of the temporary difference is controlled by the Group and it is probable that the temporary difference will not reverse in the foreseeable future. Deferred tax is determined using tax rates (and laws) that have been enacted or substantially enacted by the balance sheet date and are expected to apply when the related deferred tax asset is realised or the deferred tax liability is settled.
- D. Deferred tax assets are recognised only to the extent that it is probable that future taxable profit will be available against which the temporary differences can be utilised. At each balance sheet date, unrecognised and recognised deferred tax assets are reassessed.

E. The interim period income tax expense is recognised based on the estimated average annual effective income tax rate expected for the full financial year applied to the pretax income of the interim period, and the related information is disclosed accordingly.

#### (24) Share capital

Ordinary shares are classified as equity. Incremental costs directly attributable to the issue of new shares are shown in equity as a deduction, net of tax, from the proceeds.

#### (25) Dividends

For the distribution in cash, the Board of Directors shall be authorized to distribute the profit in cash upon resolution by a majority vote at a board meeting attended by two-thirds or more of the directors, to distribute all or part of dividends and bonuses in cash, and a report of such distribution shall be submitted in the shareholders' meeting. Cash dividends are recorded as liabilities in the Company's financial statements in the period in which they are resolved by the Company's Board of Directors. Stock dividends as resolved by the shareholders at their meeting are recorded as stock dividends to be distributed and are reclassified to ordinary shares on the effective date of new shares issuance.

#### (26) Revenue recognition

#### A. Sales revenue

- (a) The Group sells telecommunications equipment. Sales are recognised when control of the products has transferred, being when the products are delivered to the customer, the customer has full discretion over the channel and price to sell the products, and there is no unfulfilled obligation that could affect the customer's acceptance of the products. Delivery occurs when the products have been shipped to the specific location, the risks of obsolescence and loss have been transferred to the customer, and either the customer has accepted the products in accordance with the sales contract, or the Group has objective evidence that all criteria for acceptance have been satisfied.
- (b) A receivable is recognised when the goods are delivered as this is the point in time that the consideration is unconditional because only the passage of time is required before the payment is due.

#### B. Service revenue

Revenue from the rendering of services comes from providing internet data center and other services, with related revenue recognized when all of the related performance obligations are satisfied according to the contracts.

#### C. Telecommunications business revenue

The Group has established fixed rate charges for IDC services. However, for network integration, communications integration, and cloud application services, customers can select from a fixed rate or usage-based pricing, which is calculated based on actual consumption or minutes used. The Group recognized contract liabilities for monthly subscription charges and usage charges received in advance, which is recognized as revenue when subsequent usage occurs.

Since the four types of revenue from contracts with customers are not sold as bundled sales, and the contract duration between the transfer of products and services and consideration received is one year at maximum, transaction prices are not adjusted based on significant financing components.

#### (27) Operating segments

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision-maker. The Group's chief operating decision-maker, who is responsible for allocating resources and assessing performance of the operating segments, has been identified as the Board of Directors that makes strategic decisions.

#### 5. Critical Accounting Judgements, Estimates and Key Sources of Assumption Uncertainty

The preparation of these financial statements requires management to make critical judgements in applying the Group's accounting policies and make critical assumptions and estimates concerning future events. Assumptions and estimates may differ from the actual results and are continually evaluated and adjusted based on historical experience and other factors. Such assumptions and estimates have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year. The Group has no critical accounting judgements, estimates and key sources of assumption uncertainty.

- A. The Group transacts with a variety of financial institutions all with high credit quality to disperse credit risk, so it expects that the probability of counterparty default is remote.
- B. The Group has no cash and cash equivalents pledged to others.

#### (7) <u>Lease transactions — lessee</u>

A. The Group leases various assets including land, buildings and transportation equipment (business vehicles). Rental contracts are typically made for periods of 1 to 50 years. Lease terms are negotiated on an individual basis and contain a wide range of different terms and conditions. These arrangements contain renewal options to extend the lease upon expiration. Extension options are included in the land and building leases across the Group. Extension options are included to provide greater flexibility to the Group. Since the Group is reasonably certain to use the optional extended lease term, payments associated with the optional period are included within lease liabilities. The lease agreements do not impose covenants, but leased assets may not be used as security for borrowing purposes.

- B. In order to meet the needs of business development, the Company's Board of Directors during its meeting in April 2023 and the shareholders during their meeting on June 29, 2023, respectively, resolved to re-sign the building lease contract with the fellow subsidiary, Light Era. The relevant transactions for the expansion of the scope of the lease increased right-of use assets and lease liabilities by \$739,314 thousand, respectively.
- C. Short-term leases with a lease term of 12 months or less comprise transportation equipment and multifunction printers.
- D. The carrying amount of right-of-use assets and the depreciation charge are as follows:

#### (11) Pensions

- A. (a) The Company and its domestic subsidiaries have a defined benefit pension plan in accordance with the Labor Standards Act, covering all regular employees' service years prior to the enforcement of the Labor Pension Act on July 1, 2005 and service years thereafter of employees who chose to continue to be subject to the pension mechanism under the Labor Standards Act. Under the defined benefit pension plan, two units are accrued for each year of service for the first 15 years and one unit for each additional year thereafter, subject to a maximum of 45 units. Pension benefits are based on the number of units accrued and the average monthly salaries and wages of the last 6 months prior to retirement. The Company contributes monthly an amount equal to 2% of the employees' monthly salaries and wages to the retirement fund deposited with Bank of Taiwan, the trustee, under the name of the independent retirement fund committee. Also, the Company would assess the balance in the aforementioned labor pension reserve account by December 31, every year. If the account balance is insufficient to pay the pension calculated by the aforementioned method to the employees expected to qualify for retirement in the following year, the Company will make contributions for the deficit by next March.
  - (b) The pension costs under the defined contribution pension plan of the Group for the three months and nine months ended September 30, 2024 and 2023 were \$29, \$33, \$88 and \$99, respectively.
- B. (a) Effective July 1, 2005, the Company and its domestic subsidiaries have established a defined contribution pension plan (the "New Plan") under the Labor Pension Act (the "Act"), covering all regular employees with R.O.C. nationality. Under the New Plan, the Company and its domestic subsidiaries contribute monthly an amount based on 6% of the employees' monthly salaries and wages to the employees' individual pension accounts at the Bureau of Labor Insurance. The benefits accrued are paid monthly or in lump sum upon termination of employment.

(b) The pension costs under the defined contribution pension plan of the Group for the three months and nine months ended September 30, 2024 and 2023 were \$2,125, \$2,048, \$6,242 and \$6,049, respectively.

- C. On December 25, 2023, the Company's Board of Directors resolved to issue 47 thousand shares with a par value of \$10, as new shares designated for subscription when the share options of 2023 are exercised, and the effective date was set on December 28, 2023 as resolved by the Board of Directors. On January 17, 2024, the above transaction was approved by Department of Commerce, MOEA.

#### (14) Capital surplus

Pursuant to the R.O.C. Company Act, capital surplus arising from paid-in capital in excess of par value on issuance of common stocks and donations can be used to cover accumulated deficit or to issue new stocks or cash to shareholders in proportion to their share ownership, provided that the Company has no accumulated deficit. Further, the R.O.C. Securities and Exchange Act requires that the amount of capital surplus to be capitalised mentioned above should not exceed 10% of the paid-in capital each year. However, capital surplus should not be used to cover accumulated deficit unless the legal reserve is insufficient.

#### (15) Retained earnings

- A. Under the Company's Articles of Incorporation, the current year's earnings, if any, shall first be used to pay all taxes and offset prior years' operating losses and then 10% of the remaining amount shall be set aside as legal reserve. The appropriation of the remaining earnings, if any, along with the accumulated unappropriated earnings, shall be proposed by the Board of Directors and resolved by the shareholders as dividends to shareholders. For the distribution in cash, the board of directors shall be authorized to distribute the profit in cash upon resolution by a majority vote at a board meeting attended by two-thirds or more of the directors, to distribute all or part of dividends and bonuses in cash, and a report of such distribution shall be submitted in the shareholders' meeting. Such distribution does not apply the preceding shareholders' approval requirement.
- B. Except for covering accumulated deficit or issuing new stocks or cash to shareholders in proportion to their share ownership, the legal reserve shall not be used for any other purpose. The use of legal reserve for the issuance of stocks or cash to shareholders in proportion to their share ownership is permitted, provided that the distribution of the reserve is limited to the portion in excess of 25% of the Company's paid-in capital.
- C. In accordance with the regulations, the Company shall set aside special reserve from the debit balance on other equity items at the balance sheet date before distributing earnings. When debit balance on other equity items is reversed subsequently, the reversed amount could be included in the distributable earnings.
- D. The appropriations of earnings for 2023 and 2022 which were approved in the shareholders meetings on May 28, 2024 and June 29, 2023, respectively, were as follows:

# (1) Capital management

The Group's objectives when managing capital are to safeguard the Group's ability to continue as a going concern in order to provide returns for shareholders and to maintain an optimal capital structure to reduce the cost of capital. In order to maintain or adjust the capital structure, the Group may adjust the amount of dividends paid to shareholders, return capital to shareholders, issue new shares or sell assets to reduce debt.

#### B. Financial risk management policies

The Group's major financial instruments include accounts receivable, accounts payable and lease liabilities. The Group's Finance Department provides services to the business, and monitors and manages the financial risks relating to the operations of the Group through internal risk reports that analyse exposures by degree and magnitude of risks. These risks include market risk (including foreign exchange risk and interest rate risk), credit risk and liquidity risk.

# C. Significant financial risks and degrees of financial risks

# (a) Market risk

# Foreign exchange risk

i. The Group's businesses involve some non-functional currency operations. The information on assets and liabilities denominated in foreign currencies whose values would be materially affected by the exchange rate fluctuations is as follows:

### ii. Sensitivity analysis

The sensitivity analysis below was determined based on the Group's exposure to interest rates for non-derivative instruments at the balance sheet date. A 25 basis point increase or decrease is used when reporting interest rate internally to key management personnel and represents management's assessment of the reasonably possible change in interest rates. If interest rates had been 25 basis points higher/lower and all other variables were held constant, the Group's pre-tax profit for the nine months ended September 30, 2024 and 2023 would have decreased/increased by \$523 and \$242, respectively, which was mainly

#### (b) Credit risk

 Credit risk refers to the risk of financial loss to the Group arising from default by the clients or counterparties of financial instruments on the contract obligations. The main factor is that counterparties could not repay in full the accounts receivable based on the agreed terms.

a result of variable-rate interest on the Group's bank deposits.

- ii. The main credit terms for the Group's sale of products range from 30 to 90 days. The Group adopted a policy of only dealing with entities that are rated the equivalent of investment grade or higher. The Group uses other publicly available financial information or its own trading records to rate its major customers. The Group's exposure and the credit ratings of its counterparties are continuously monitored.
- iii. The Group measures the loss allowance for notes and accounts receivable at an amount equal to lifetime ECLs. The expected credit losses on notes and trade receivables are estimated using a provision matrix prepared by reference to the past default experience of the customer, the customer's current financial position, economic condition of the industry in which the customer operates, as well as the GDP forecasts. As the Group's historical credit loss experience does not show significantly different loss patterns for different customer segments, the provision for loss allowance based on past due status is not further distinguished according to the Group's different customer base.
- iv. The Group writes off a notes and accounts receivable when there is evidence indicating that the debtor is in severe financial difficulty and there is no realistic prospect of recovery, e.g. when the debtor has been placed under liquidation. For notes or trade receivables that have been written off, the Group continues to engage in enforcement activity to attempt to recover the receivables due. Where recoveries are made, these are recognized in profit or loss.
- v. The Group transacts with a large number of unrelated customers and thus, credit risk is not highly concentrated.
- vi. The Group's provision matrix on September 30, 2024, December 31, 2023 and September 30, 2023 is as follows:

#### (3) Fair value information

- A. The different levels that the inputs to valuation techniques are used to measure fair value of financial and non-financial instruments have been defined as follows:
  - Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date. A market is regarded as active where a market in which transactions for the asset or liability take place with sufficient frequency and volume to provide pricing information on an ongoing basis. The fair value of the Group's investment in financial assets at fair value through profit or loss is included in Level 1.
  - Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly.
  - Level 3: Unobservable inputs for the asset or liability.

- B. Financial instruments not measured at fair value
  - The carrying amounts of cash and cash equivalents, notes receivable, accounts receivable, other receivables, notes payable, accounts payable, other payables and long-term borrowings are approximate to their fair values.
- C. The related information of financial instruments measured at fair value by level on the basis of the nature, characteristics and risks of the assets and liabilities at September 30, 2024, December 31, 2023 and September 30, 2023 are as follows:

D. The instruments the Group used market quoted prices as their fair values (that is, Level 1) are listed below by characteristics:

Market quoted price Listed shares

Closing price

- E. Valuation techniques and inputs of Level 3 fair value measurement
  - The fair values of domestic unlisted equity securities were determined using the income approach. In this approach, the discounted cash flow method was used to capture the present value of the expected future economic benefits to be derived from the ownership of these investees. An increase in long-term revenue growth rates or a decrease in the weighted average cost of capital or discount for lack of marketability used in isolation would result in an increase in the fair value.
- F. For the nine months ended September 30, 2024 and 2023, there was no transfer between Level 1 and Level 2.
- G. For the nine months ended September 30, 2024 and 2023, there was no movement of Level 3.

### 14. Operating segment Information

### (1) General information

The Group operates business only in a single industry. The Board of Directors, who allocates resources and assesses performance of the Group as a whole, has identified that the Group has only one reportable operating segment.

# (2) Segment Information

The chief operating decision-maker, who assesses performance of the Group based on the profit or loss before tax in the financial statements, has measured that the Group has only one reportable operating segment. Therefore, the operating segment information is in agreement with that in the main financial statements.

# (3) Reconciliation for segment income (loss)

The revenue and profit or loss from external customers reported to the chief operating decision-maker is measured in a manner consistent with that in the statement of comprehensive income.
